Re: Freedom of Information Act
(FOIA) # (HQ) RIN-06754-94
(FOIA) # (8) RIN-01475-94

Dear Ms. Beless:

This letter responds to your two requests of October 14, 1994, under the Freedom of Information Act (FOIA) for the Richardson Flat Tailings Site, Park City, Utah. Because of the overlapping nature of the requests, a single response letter is appropriate.

Some of the correspondence documents you have requested under the above described FOIAs have been sent to you previously in response to your request under (FOIA) # (8) RIN-01456-94.

The documents you currently are requesting number more than 100 pages. Therefore, pursuant to your request, I am enclosing the publicly available indexes listed below:

Superfund Remedial Branch Site File Index of Administrative Record documents;

Index of Preliminary Assessment documents from the Superfund Management Branch;

Site File Index and Key words.

Please note that the Superfund Emergency Response Branch site file also contains more than 100 pages, but no index is available nor is it required to exist by law. Therefore, no index for these files is provided herein. As you know, the non-privileged portion of the Emergency Response Branch file is available for review at the Region VIII Superfund Records Center in Denver, Colorado.

I suggest you review the document titles of the indexes and make a new FOIA request for specific documents of interest to your firm. Also, you may wish to make plans to review the documents at the Environmental Protection Agency (EPA) Region VIII Records Center.

Printed on Recycled Paper

There will be no fee for providing you with the enclosed indexes as no research or photocopy costs were incurred. You may incur future charges if you request a substantial number of documents after your review of the indexes.

Thank you for your inquiry to EPA. If you have any questions please contact Mr. Michael McCeney, Remedial Project Manager (RPM) for the site, at 303/293-1526, or Mr. Rick Baird, Site Attorney, at 303/293-1879

Sincerely,

A handwritten signature in black ink, appearing to read "Diana Shannon", with a long horizontal flourish extending to the right.

Diana Shannon, Chief
Superfund Remedial Branch
